

## **PUBLIC**

### **Dear Investor,**

Transparency and ease of access are the foundations of a successful investment journey. To empower you with a "bird's eye view" of your entire portfolio, the Depositories (CDSL & NSDL), in coordination with **SEBI**, have upgraded their mobile applications.

You can now monitor your securities held across both depositories in a single, consolidated view—eliminating the need for multiple logins and fragmented tracking.

### **Key Benefits for You**

- **One-Stop View:** Access a consolidated statement of all your securities across both CDSL and NSDL.
- **Portfolio Management:** View transaction and holding statements in one place for better financial planning.
- **Real-time Monitoring:** Keep track of open positions and margin details across Stock Exchanges and Clearing Corporations.
- **Exercise Your Rights:** Cast your **E-voting** on company resolutions directly through the app.
- **Informed Decisions:** Get direct access to recommendations from proxy advisers on various resolutions.

We encourage you to explore the updated **CDSL INVESTOR MOBILE APPLICATION-MYEASI** and experience a smarter, more integrated way to track and manage your investments.
